EFFORTLESS ORDERING

→ DirectUP Seamless ERP/SAP Integration

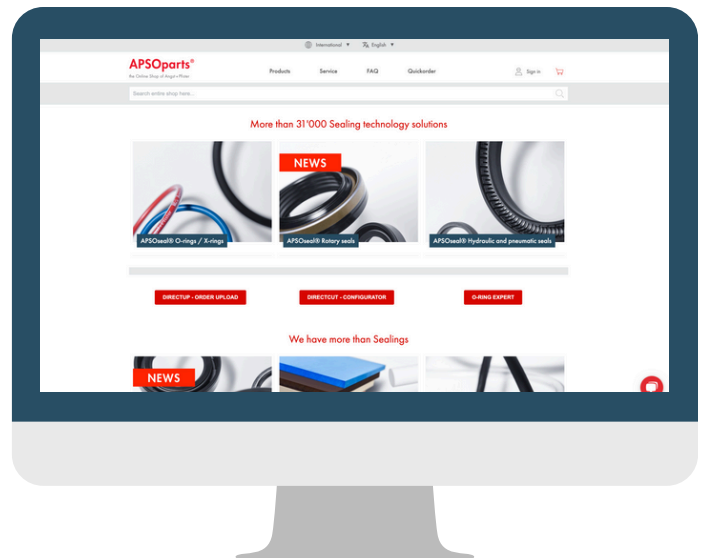

Effortlessly import orders from your ERP/SAP system to our shop. With DirectUP Order Upload you can place orders without any manual entry within seconds.

→ DirectCUT Configurator

Experience effortless precision with our user-friendly cut-to-size configurator, designed to simplify your ordering of custom-sized plastic sheets, rods, tubes, and more for an array of products with just a few clicks.

→ O-ring Expert Product Finder

Discover the perfect O-ring with ease: our intuitive search tool swiftly narrows down choices by material, size, groove dimension, and application type, ensuring a hassle-free selection for your specific needs.

ENDLESS SOLUTIONS, ONE DESTINATION: APSOparts® FULL PRODUCT ASSORTMENT

APSOseal® Sealing Technology

More than 30,000 sealing technology products across:

- O-rings and X-rings
- Rotary seals
- Hydraulic and pneumatic seals
- Profiles, round cords and strips
- Plates and flat gaskets

APSOplast® Engineering Plastics Technology

Wide range of semi-finished plastics
assortment across plates, round bars and tubes:

- Fluor, high performance and engineering plastic materials
- Plastic materials with approvals for food applications

APSOfluid® Fluid Handling Technology

A wide range of technical and
standardized components:

- Single-layer and multi-layer hoses for different applications
- Hose connectors, adapters and cutting ring fittings
- Pneumatic quick couplings or plug-in couplings and tube connection

APSOdrive® Mechanical Drive Technology

Optimal drive solutions with high-quality
standard components:

- Timing belts, V-belts and flat belts
- Pulleys for timing- or V-belts
- Clamping elements and shaft-hub connections

APSOvib® Antivibration Technology

Highly efficient products to suppress
vibrations and noise:

- Mounts for mobile or static applications
- Buffers, rubber springs, rubber hollow springs and bushings
- Leveling machine mounts, spring elements, air springs and insulating plates

WHAT WE ARE EXPERTS IN:

> Sealing Technology

O-Rings and X-rings

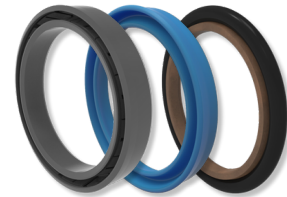

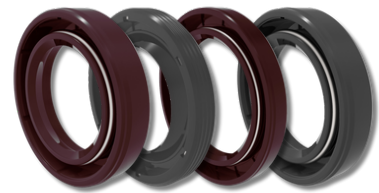

- High Performance O-rings: KALREZ® and FEP-O-SEAL®
- HITEC® O-rings with approvals: EPDM, NBR, FKM and VMQ
- NORMATEC® O-rings: NBR, FKM, EPDM, VMQ, HNBR and PTFE
- X-rings in NBR

Rotary Seals

- Radial shaft seals (Form A, AS, B, BS, C, CS)
- Axial shaft seals (V-rings)
- End caps
- Shaft protection sleeves

Hydraulic and Pneumatic Seals

- Rod seals
- Piston seals
- Piston-rod seals
- Wiper seals and guide tapes

Engineering Plastics Technology <

Plastic materials for food applications with FDA and EC 1935/2004 approvals

PTFE, PEEK, POM, PA, PE, PP,
PET, PVDF, PMMA, PPS

Fluor Plastic Materials

PTFE, PVDF, PCTFE

High Performance Materials

PEEK, PPS, PAI, PEI, PBI

Engineering Plastic Materials

POM, PET, PA

Standard Materials

PE, PP, PVC, PUR, PMMA, PC
